

## **MYSverse Clarifies Recent Events Involving Istana MYSverse and Zulk1fli**

**Subang Jaya, 13 April 2025** — MYSverse remains committed to its mission of creating immersive, culturally enriched and community-driven virtual experiences. We deeply value our diverse stakeholders and roleplay institutions, especially those who help preserve the integrity of Malaysian traditions in our virtual worlds.

Recent concerns have arisen regarding the involvement of community member Zulk1fli (Zul) in the proposed creation of a managed state within MYSverse, and alleged plans to install him as the "Sultan" of Pahang within the MYSverse Sim universe. We wish to address these concerns with transparency and respect for all involved to members of the Sim community.

---

### **1. Summary**

From the outset, we would like to confirm the following:

- **Zul is not the Sultan of Pahang** in MYSverse Sim.
- **The administration has indeed been in contact with Zul** since 10 March 2025 which will now be explained below.
- **Zul will manage the Pahang group** only in an administrative, development-focused capacity for now.
  - This project **does not affect the operations of MYSverse Sim**.
  - This project is partnered with MYSverse on our **partnership capacity** under MYSverse Digital Ventures's MYSverse Network scheme.
- **Garvis remains the administration endorsed Sultan-designate** for Pahang within MYSverse Sim.
- The **dispute between an Administrator and members of Istana MYSverse** was regrettably **triggered by easily avoidable misunderstandings** regarding the role of Zul's Pahang group. Context will be provided below.

## 2. Timeline of Events

**10 March 2025:** The MYSverse administration became aware of Zul's involvement in a separate Roblox project. At the time, we viewed this as a potential competitor project against MYSverse. On Zul's request, we will not disclose the name or nature of this project in this statement.

**BUILT BY MALAYSIANS, DESIGNED FOR EVERYONE**

9:57 PM **yan3321** I suppose we can ask him to clarify his intentions now

**yan3321** see how he responds

**yan3321** if it's all good he can continue

9:57 PM **yiheng16** Yeah

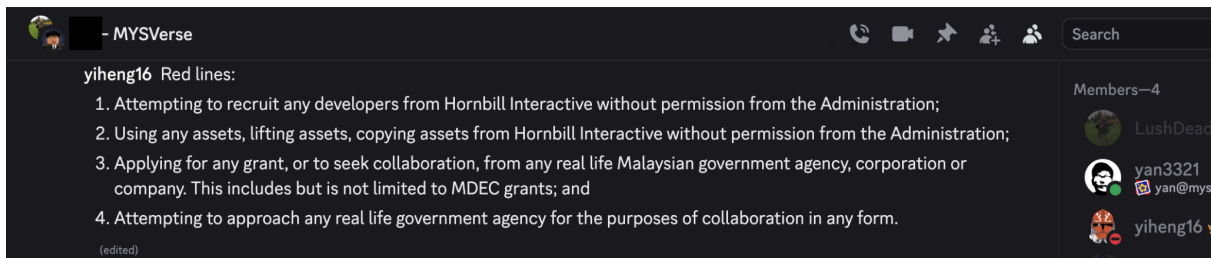

**yiheng16** Do you want me to make a GC

**yiheng16** with us in it

9:57 PM **yan3321** sure

From: MYSverse administration Discord Server

Discussions involving Head Administrators **yan3321**, **yiheng16** and **LushDeadlymau125** were held to determine whether this constitutes a conflict of interest. After a period of discussions with Zul, these red lines were agreed between the administration and Zul in relation to his project to avoid open competition between MYSverse and his project.

From: Zul-MYSverse GC

**1 April 2025:** Zul proposed dissolving his project and integrating its assets into MYSverse in exchange for the opportunity to manage a state under MYSverse, namely Pahang. The administration responded positively in principle, noting that unity among Malaysian-themed communities is beneficial rather than continued competition. The assets planned to be integrated include assets for MYSverse Sim experiences.

9:17 PM **Mr Zaza** Hello Administration, this is a forwarded message

Would the administration be down to establish the State of Pahang within MYSverse, in return the cease of [redacted] and providing assets of [redacted] to MYSverse (CSG-Mesh Vehicles too).

From: Zul-MYSverse GC

**BUILT BY MALAYSIANS, DESIGNED FOR EVERYONE**

9:09 PM yiheng16 @yan3321 Zul has approached us with a deal (edited)  
 yiheng16 He wants to be given permission to establish a State of Pahang under MYSverse  
 9:10 PM garbeeze HELLO  
 garbeeze SULTAN OF PAGANG?  
 garbeeze PAHANG  
 9:10 PM yiheng16 and for us to provide material support through assets (edited)  
 yiheng16 in return, he will cease the development of his competitor game  
 yiheng16 and also provide all assets made to date for his project to MYSverse  
 9:13 PM yan3321 you know what  
 yan3321 I don't see a problem with that

From: MYSverse administration Discord Server

**1–4 April 2025:** Zul created groups for "MYS Pahang" and its royal family. Some confusion arose within the administration around whether this entailed him becoming Sultan.

9:27 PM yiheng16 do we want him to hold the pahang group  
 yiheng16 or we make one under MYS  
 yiheng16 @garbeeze ummm.....

yiheng16 i think he has taken your role  
 yiheng16 @yan3321 what do we do with this

9:44 PM yan3321 considering if we want to make this thing like a programme in the future  
 yan3321 if the Sarawak project changes their mind for example  
 yan3321 I would rather have the owners hold the state groups themselves  
 yan3321 so there is a degree of separation in terms of responsibility  
 @yan3321 I would rather have the owners hold the state groups themselves  
 9:47 PM yiheng16 yes but we didnt agree that zul would become sultan of pahang  
 yiheng16 since i promised that position to garvis  
 9:47 PM yan3321 okay on that issue hmn  
 9:49 PM garbeeze ya man  
 garbeeze i've been asking for that since day 1 🙄  
 garbeeze he own self declare sultan also  
 @yiheng16 yes but we didnt agree that zul would become sultan of pahang  
 9:50 PM yan3321 we can raise it up to him and see what he says  
 9:50 PM garbeeze without istana approval also  
 9:50 PM yan3321 though i think a compromise will probably have to be agreed on by someone

From: MYSverse administration Discord Server

**BUILT BY MALAYSIANS, DESIGNED FOR EVERYONE**

garbeeze honestly if he doesn't want any other state and istana approves him of being a sultan himself  
garbeeze and it's for the better of the group future development  
garbeeze sure i guess ill be the bigger person and give it to him  
9:52 PM yiheng16 let me poke and prod zul first  
9:53 PM yan3321 the way i see it to be honest  
yan3321 if he's going to put in the work to develop Pahang specifically  
yan3321 then i do believe the role would be most appropriate for him  
yan3321 instead of being a purely ceremonial position  
yan3321 but that's just my personal opinion though  
yan3321 we can offer Garvis another position maybe, and lock it in so there are no future conflicts

From: MYSverse administration Discord Server

The administration clarified to Zul that offering assets does not equate to an automatic appointment to a ceremonial royal position:

Mr Zaza <https://www.roblox.com/communities/35816865/MYS-Pahang-Royal-Family#!/about>  
Request has been sent to Durbar.  
Mr Zaza <https://www.roblox.com/communities/35816869/MYS-Pahang#!/about>  
9:52 PM yiheng16 I was under the impression that you were asking to run Pahang and not become Sultan for it  
9:58 PM Mr Zaza Oh, I thought it was made clear though since I am also offering assets of way into MYSVerse.  
10:13 PM yan3321 It may have been implied but it wasn't stated outright, nor does the offering of assets automatically make someone a Sultan  
yan3321 generally speaking we do agree to the leadership part  
yan3321 but since this involves a ceremonial position with established processes  
yan3321 and various internal stakeholders  
yan3321 allow us some time to discuss  
yan3321 personally I am okay with it as long as the traditions etc are respected, but we also need to consider the perspectives of others

From: Zul-MYSverse GC

Between **1 and 3 April 2025**, the administration sought the opinions of the Istana MYSverse on this possibility. The Istana MYSverse's opinion was negative as evident in the response below. To prevent incriminating content and discussions from being revealed, some usernames have been redacted from the screenshots:

9:52 PM yiheng16 Zul wants to become Sultan of Pahang btw  
9:52 PM no...  
i rather put garviz in first

Later, Administrator Yi Heng conveyed the Istana's opinion of the initial proposal to the administration after the appropriate engagements above the same day.

9:54 PM yiheng16 What if the Palace refuses to register him  
9:57 PM yan3321 if it is for a legitimate reason like over his character, or concerns he might not respect the istiadat etc etc I think our views should be aligned with the Istana  
yan3321 idk the "requirements" so to speak  
9:58 PM yiheng16 i've just spoken to istana as initial detail and they've all threatened to boycott him  
yiheng16 even though i've not made commitments  
9:58 PM yan3321 is there any reason why  
yan3321 if it is for a legitimate reason like over his character, or concerns he might not respect the istiadat etc etc I think our views should be aligned with the Istana  
9:59 PM yan3321 because from my perspective this would be my concerns if I was Istana  
9:59 PM yiheng16 i will ask but the reaction is very negative  
yiheng16 even as a suggestion

10:54 PM yiheng16 so the objections from the palace come from the fact that Zul hasn't earned his way up the same way as Garvis  
yiheng16 from what I can discern  
yiheng16 their reasoning is not entirely clear  
10:54 PM yan3321 eh  
yan3321 Garvis is an outlier I would say  
yan3321 bro is doing the job of 1000 ppl and I would honestly say its kind of unreasonable to expect 1 individual to achieve so much lol  
10:55 PM yiheng16 i think they just dont like zul personally  
yiheng16 but dont want to say that  
10:55 PM yan3321 yeah that is what I suspect  
yan3321 I think however you cannot discount Zul's contributions as well  
yan3321 in particular the Vastrix system  
10:55 PM yiheng16 yep

From: MYSverse administration Discord Server

**7 April 2025:** Amidst community backlash and perceived misunderstandings from his Sim-related controversy, Zul issued a revised proposal. He formally withdrew from any pursuit of the Sultan of Pahang title and offered to manage the state of Pahang in a non-ceremonial administrative capacity in the Zul-MYSverse Group Chat.

10:55 PM **Mr Zaza** Hello Administrators, I'd like to revise the initial proposed discussion and this decision has been made after countless individuals attacking me with statements I've never made or mentioned and it's truly breaking friendships (to the point it is basically cyberbullying with people twisting context to make me look guilty) for things I never did.

- [REDACTED] will shut down
- I will not be recognised as Sultan
- I will manage the Pahang State as a Manager (as previously acknowledged)
- To grant me permission to make a statement and clear confusion to the public

(edited)

10:57 PM yiheng16 Why did you do what you did initially?

10:57 PM **Mr Zaza** It was for the Bandaraku thing, me and panda are friends and there was no opposing, yes I understand it was a mistake on my end but being attacked out of discord is abit of a no no

From: Zul-MYSverse GC

**BUILT BY MALAYSIANS, DESIGNED FOR EVERYONE**

**11 April 2025:** The administration engaged in a discussion within the MYSverse Administration Discord Server relating to the amended proposals to clarify what the proposal would include:

5:19 PM **garbeeze** i hope to also clarify on what exactly was the arrangement yall had with him  
**garbeeze** cos i think most of us here vaguely knows and probably have different perceptions/interpretations abt it (edited)  
5:19 PM **yiheng16**  
1. Nothing is really changing just because he won't be Sultan of Pahang anymore. He would *still* be administering Pahang as a separate MYSverse venture either way and this isn't changing.  
  
2. The deal, to my understanding, is now this:  
  
[REDACTED] will shut down  
I will not be recognised as Sultan  
I will manage the Pahang State as a Manager (as previously acknowledged)  
To grant me permission to make a statement and clear confusion to the public"  
  
This was in line with the original plan, *whether or not* he is to become Sultan of Pahang. In this case, we've established that he will not be.  
  
3. He is not being brought in as part of the MYSverse Administration.  
  
4. We have no plans to cannibalise existing MYSverse resources for his Pahang project. That has not changed under the original plan, and that has not changed now.  
  
5. He will still be providing his resources from his competitor project for our use in [REDACTED] which we'll be able to release quicker now.

5:38 PM **yiheng16** there is a "Sim pahang" which you will be sultan of pahang of which doesnt actually exist  
**yiheng16** because there is nobody to run the "Sim pahang"  
**yiheng16** and then there is the Zul pahang which is in MYSverse  
5:39 PM **garbeeze** okay i guess we just got to iron out the fine details abt what his job scope is as a grp manager and finalise it  
**garbeeze** then i think  
5:39 PM **yiheng16** We can worry about that later  
5:39 PM **garbeeze** ill probably be fine with it  
5:39 PM **yiheng16** Ok

6:00 PM **yan3321** it would be pretty cool for each state to be an actual subgroup imo  
**yan3321** then we can have  
**yan3321** state elections  
**yan3321** and federal elections ppl actually vote based on their constituency  
**yan3321** if we want to make this into a programme where ppl can apply to claim/run states under mysverse  
**yan3321** long term  
**yan3321** and also use it as an opportunity to set boundaries and avoid the initial confusion we had earlier  
6:02 PM **yiheng16** I will rediscuss the proposal with Zul

From: MYSverse administration Discord Server

**BUILT BY MALAYSIANS, DESIGNED FOR EVERYONE**

To clarify how the State of Pahang would fit within MYSverse Digital Ventures, Administrator Yi Heng simultaneously engaged with Zul in the Zul-MYSverse Group Chat. This included re-clarifying the scope of his proposal, the “Sultan of Pahang” issue, and considering the objections of Istana MYSverse:

5:40 PM yiheng16 Just to clarify, do you want your Pahang to be part of the Sim universe?  
yiheng16 Or under a MYSverse Community but separate from Sim  
yiheng16 And does the new agreement still include some technology transfer and you remaining a MYSverse Developer?  
@yiheng16 And does the new agreement still include some technology transfer and you remaining a MYSverse Developer?  
5:55 PM Mr Zaza Technology Transfer included  
@yiheng16 Just to clarify, do you want your Pahang to be part of the Sim universe?  
5:55 PM Mr Zaza yes  
5:57 PM yiheng16 Would you agree if someone else became Sultan of Pahang?  
5:58 PM Mr Zaza Whom  
Mr Zaza is it tho  
Mr Zaza I've already detached myself (edited)  
Mr Zaza from everything else  
5:59 PM yiheng16 Garvis  
5:59 PM Mr Zaza Okay I guess if I don't have a say in it (edited)  
Mr Zaza what more can I do  
6:00 PM yiheng16 It's just that we promised him that position before we discussed our deal  
yiheng16 And he was prepared to step aside for you  
6:00 PM Mr Zaza I'll let garvis decide

From: Zul-MYSverse GC

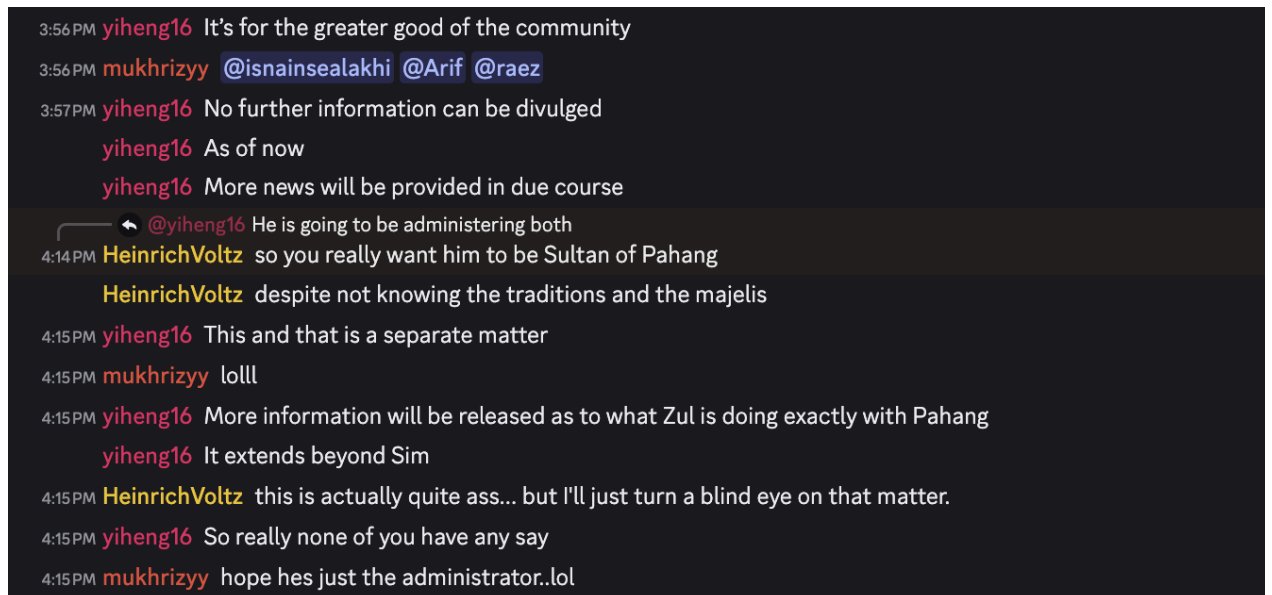

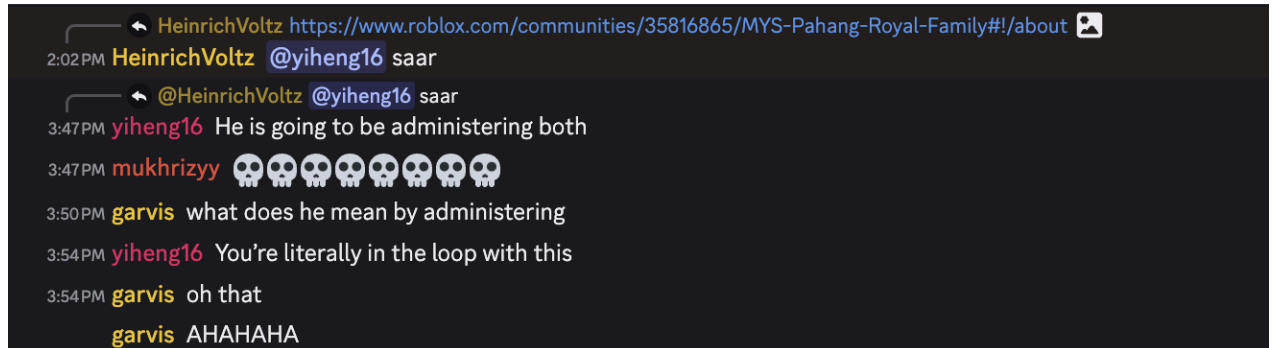

Later in the evening, Administrator Yi Heng was then made aware by **HeinrichVoltz** within the Istana MYSverse Discord Server, questioning the existence of Zul's Pahang groups:

### 3. Allegations of a Secret Deal Between Administrator Yi Heng and Zul

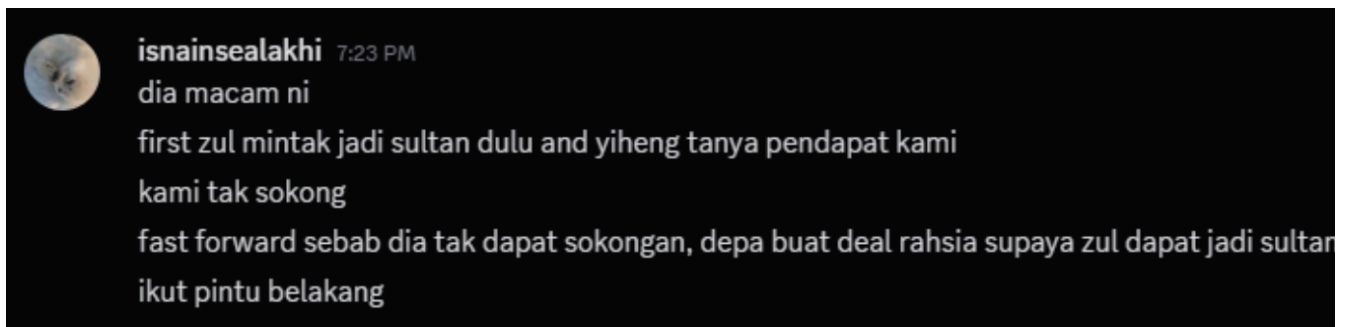

There have been concerns from some members of the MYSverse Community that Administrator Yi Heng was acting secretly to support Zul's appointment as Sultan of Pahang behind the backs of Istana MYSverse.

We confirm that **this is not true**. We would like to respond directly to the allegations made by Syabil, and another person whose identity we have not disclosed:

On 12/4/2025 11:08 pm, [REDACTED] wrote:

I am thoroughly being disappointed these 2 days as there were several notable people has been resigned from their positions in Istana due to a very secret deal perpetrated by yiheng16 for establishing Sultan of Pahang without the approval of Majlis Raja-raja and Istana MYSverse. I do hope you'll see this images and take a deep thorough of the statements. There is no one else I can report this issue to other than you as probably the highest person that runs the whole MYSverse, by business or the roleplay. I hope you can consult to those people listed in these images.

**At no point** was Administrator Yi Heng acting or discussing any proposal in secret with Zul through any “back channels”. Administrator Yi Heng’s role was limited to negotiations relating to the proposal, as we have shown above in the timeline given.

BUILT BY MALAYSIANS, DESIGNED FOR EVERYONE

The administration has been in direct contact with Zul through the Zul-MYSverse Group Chat. Head Administrators **yan3321**, **yiheng16** and **LushDeadlymau125** were aware of any developments relating to the proposal at all times:

While Zul has approached Administrator Yi Heng in private regarding the State of Pahang MYSverse proposal, Administrator Yi Heng redirected all discussion initiated by Zul to the Zul-MYSverse Group Chat in the interests of transparency:

From: Direct Messages between Administrator Yi Heng and Zul

We acknowledge that from an outsider's perspective, there may be a perception that there was some form of secret agreement impacting MYSverse Sim. However, the context provided in the timeline should now clarify what actually happened between the administration and Zul and what Administrator Yi Heng's role was.

#### 4. About the Managed State Concept

Zul's proposal to manage the State of Pahang is part of a broader idea we've been exploring—to allow trusted contributors to manage certain regions or states within the MYSverse Network under a framework that preserves cultural integrity and community cohesion.

This scheme **does not affect MYSverse Sim**. Rather, it is intended to promote like-minded Malaysian-based projects and secure a better future for the Roblox Malaysia community in our **partnership capacity** as **MYSverse Digital Ventures**.

To learn more about this framework, see the link below:

<https://blog.mysver.se/introducing-mysverse-network/>

This idea is not exclusive to Zul. We **previously extended a similar offer to a Sarawak-based project** and may continue to do so with clearer guidelines and more transparency in the future.

6:00 PM yan3321 it would be pretty cool for each state to be an actual subgroup imo  
yan3321 then we can have  
yan3321 state elections  
yan3321 and federal elections ppl actually vote based on their constituency  
yan3321 if we want to make this into a programme where ppl can apply to claim/run states under mysverse  
yan3321 long term  
yan3321 and also use it as an opportunity to set boundaries and avoid the initial confusion we had earlier

From: MYSverse administration Discord Server

The concept envisions appointed managers working under MYSverse oversight while maintaining alignment with our values and creative direction. This model offers scalability while maintaining quality and consistency.

We will endeavour to make it more clear what the boundaries between **MYSverse Sim** and **MYSverse Digital Ventures** are under the MYSverse Network scheme.

## 5. Reflections on Process and Communication

We acknowledge that the handling of this situation could have been more transparent and better communicated, especially to members of Istana MYSverse. After Administrator Yan was provided access to the Istana MYSverse server, what exactly led to these series of unfortunate events became clear. In particular, we regret the way this was communicated to members of Istana MYSverse by Administrator Yi Heng:

4:15 PM yiheng16 More information will be released as to what Zul is doing exactly with Pahang  
yiheng16 It extends beyond Sim  
4:15 PM HeinrichVoltz this is actually quite ass... but I'll just turn a blind eye on that matter.

From: Istana MYSverse Discord Server

While it is now clear what Administrator Yi Heng really meant once we put this in context, we acknowledge that this was not clear to others at the time. The way he communicated this to members of Istana MYSverse was not ideal.

BUILT BY MALAYSIANS, DESIGNED FOR EVERYONE

While Administrator Yi Heng was correct in not providing more details or further explanation of Zul's Pahang groups to members of Istana MYSverse at that time due to the ongoing and confidential nature of those discussions, we regret the way that Administrator Yi Heng communicated this to members of Istana MYSverse. He should have known that this would have inevitably led to a misunderstanding.

At the same time, although the administration holds the ultimate decision-making authority, **we made the deliberate choice from the onset to involve and consult with the Istana MYSverse and other stakeholders rather than proceeding unilaterally.** This is despite the fact that Zul's State of Pahang project would be an **external MYSverse Digital Ventures project** and **not part of MYSverse Sim.**

We recognise that the ceremonial aspect of any royal title is significant and must be respected. No final decision regarding the Sultan of Pahang in MYSverse has been made, and any such role must respect *istiadat*, *adat* and internal community processes.

**garbeeze** honestly if he doesn't want any other state and istana approves him of being a sultan himself

yiheng16 Zul's Pahang fiasco is SEPARATE from everything happening here, and what we've decided in relation to Zul is SEPARATE to anything which is happening in Istana and the Sim universe. (edited)  
@HeinrichVoltz unamused with the administration decision  
9:38 PM yiheng16 Unamused with what decision  
yiheng16 Please can you tell me what decision has been made  
yiheng16 I repeat again to those who are still in doubt  
yiheng16 There are NO PLANS to install Zul as Sultan of Pahang  
yiheng16 Zul's management of the Pahang group is SEPARATE from MYSverse Sim (edited)  
yiheng16 The incoming Sultan of Pahang-to-be is still Garvis  
yiheng16 You guys will have no say as to Zul's management of the Pahang group because that has NOTHING TO DO with MYSverse Sim's present institutions  
yiheng16 It is to do with his own role in the Pahang group which will be that of management of that group and its games and places (as within the MYSverse community but separate from the Sim institutions as of now)

From: Istana MYSverse Discord Server

The administration **reiterates our unanimous support** for Garvis as the current candidate for the role, with no change to this position as of now.

While the possibility of Zul becoming Sultan of Pahang was indeed raised during discussions within the administration in the early stages **before the Sim controversy**, this was **eliminated** as a possibility between **5 April and 11 April** after feedback from Istana MYSverse and Zul's Sim controversy (referred to as **"his stunt"** in the screenshot below). This was decided **before** tensions boiled over between Administrator Yi Heng and members of Istana MYSverse:

5:19 PM yiheng16

1. Nothing is really changing just because he won't be Sultan of Pahang anymore. He would *still* be administering Pahang as a separate MYSverse venture either way and this isn't changing.
2. The deal, to my understanding, is now this:  
  
[redacted] will shut down  
I will not be recognised as Sultan  
I will manage the Pahang State as a Manager (as previously acknowledged)  
To grant me permission to make a statement and clear confusion to the public"  
  
This was in line with the original plan, *whether or not* he is to become Sultan of Pahang. In this case, we've established that he will not be.
3. He is not being brought in as part of the MYSverse Administration.
4. We have no plans to cannibalise existing MYSverse resources for his Pahang project. That has not changed under the original plan, and that has not changed now.
5. He will still be providing his resources from his competitor project for our use in [redacted] which we'll be able to release quicker now.

6:02 PM yiheng16 I will rediscuss the proposal with Zul  
yiheng16 I'll be open with him that the Palace is quite hostile to him  
6:02 PM garbeeze but if his not running for a royal seat  
garbeeze what has palace got to do with it  
6:03 PM yiheng16 because it looks like from my conversation with him  
yiheng16 that he still really wants to be sultan of pahang  
6:03 PM garbeeze oh  
garbeeze LOL  
6:03 PM yiheng16 so I will just be open and explain to him  
yiheng16 that his stunt basically closed that door on him

## 6. Clarifying Zul's Role and Contributions

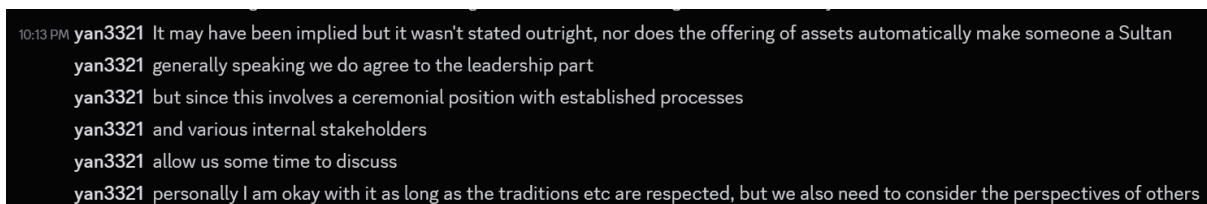

There is a perception from some members of the Community that Zul "buys" his way into positions of power:

From: Screenshot attached to Complaint email sent to Head Administrator Yan

While it is true that Zul has contributed financially to the MYSverse community, the administration stresses that this has **never been the basis for any appointment**. Crucially, there were **never any direct financial contributions or sponsorships** to the MYSverse team in any form — mostly Robux directed to community-run projects such as MyTransit. Any claims otherwise are **untrue**.

Our internal conversation in the Zul-MYSverse Group Chat from 1 April clearly states that contributing assets does not automatically entitle one to any title or power.

10:54 PM yiheng16 so the objections from the palace come from the fact that Zul hasn't earned his way up the same way as Garvis  
yiheng16 from what I can discern

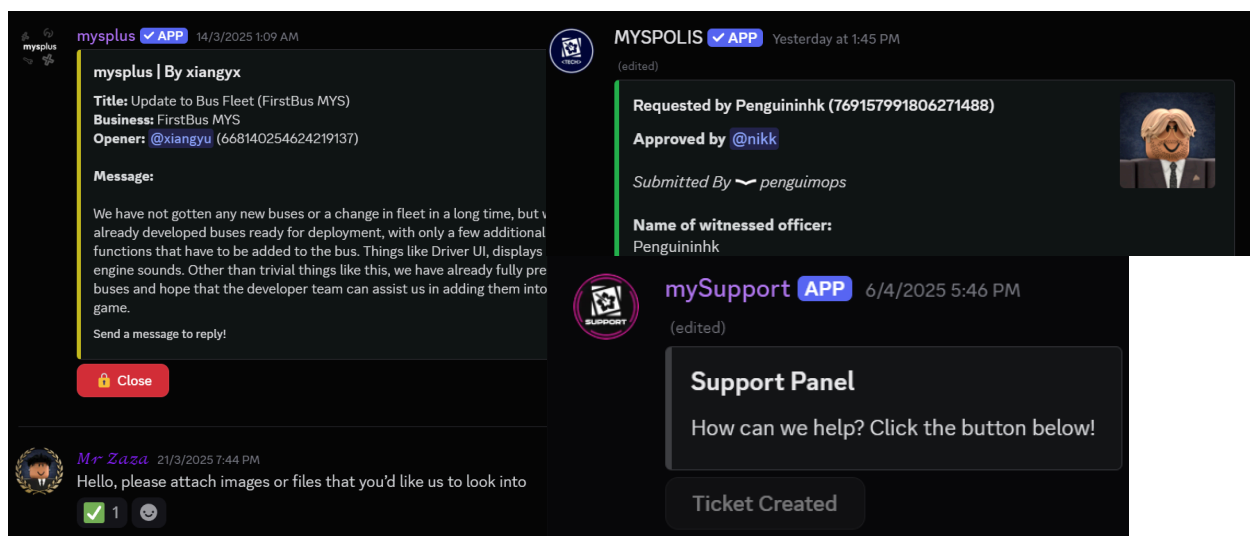

From: MYSverse administration Discord Server

However, we would like to point out that **Zul has contributed meaningfully in non-monetary ways:**

- He developed **Vastrix Bank**, a vital in-game financial system now empowering the MYSverse Sim financial ecosystem.

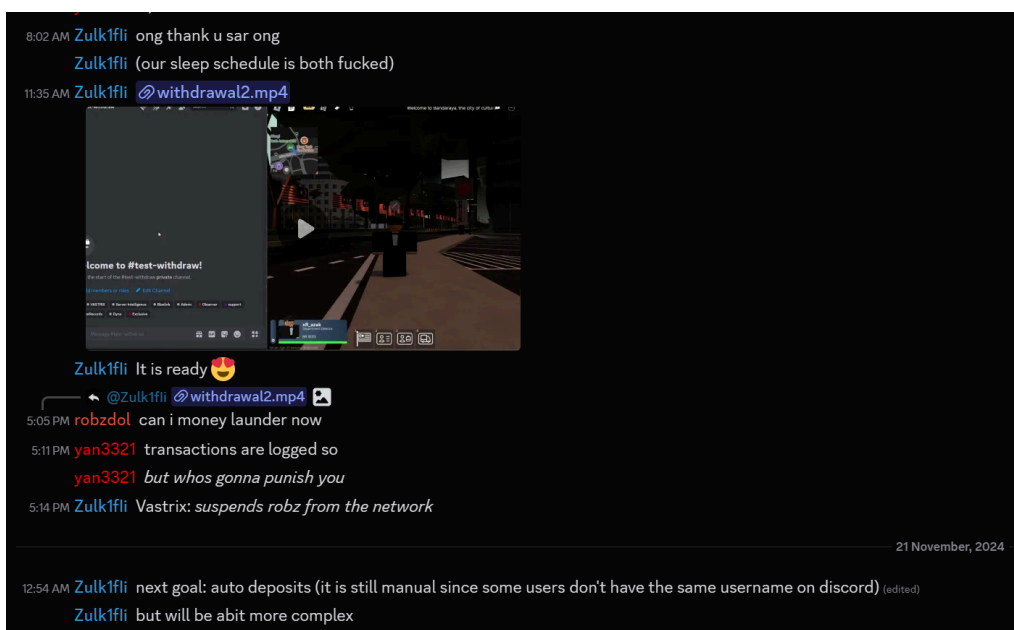

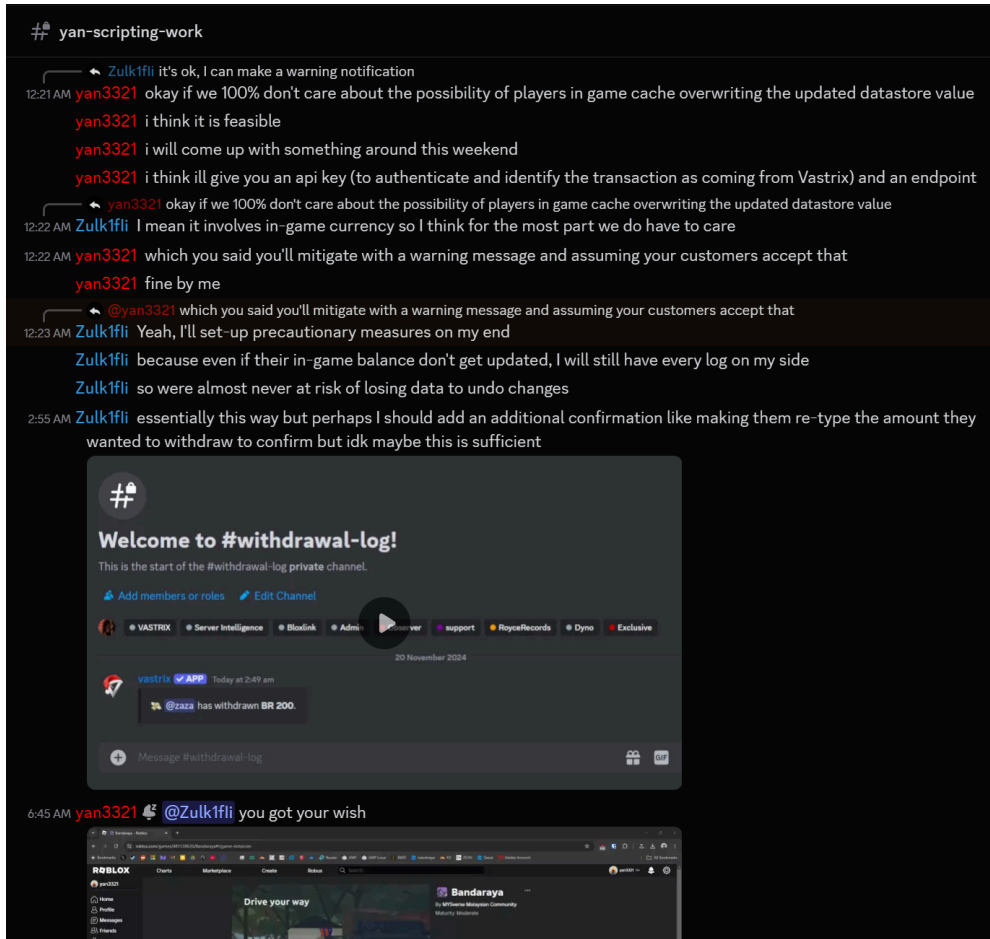

- He is also the developer of the following systems:
  - **mysplus**, connecting the development team and Sim community;
  - **MYSPOLIS**, which is in active use by the Polis MYSverse and MYSverse Moderation;
  - **mySupport**, soon to aid the Moderation team in their duties.

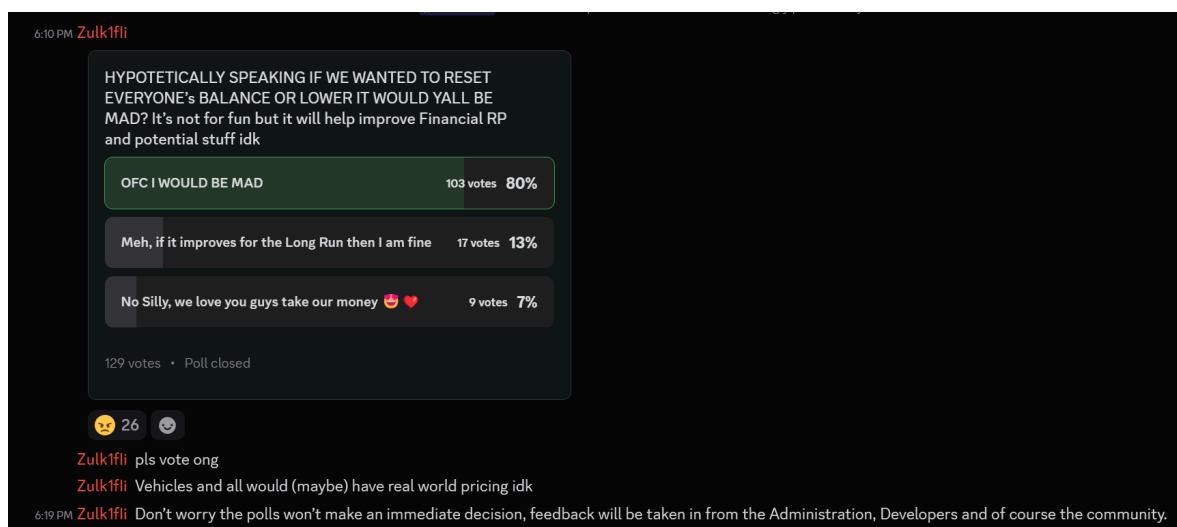

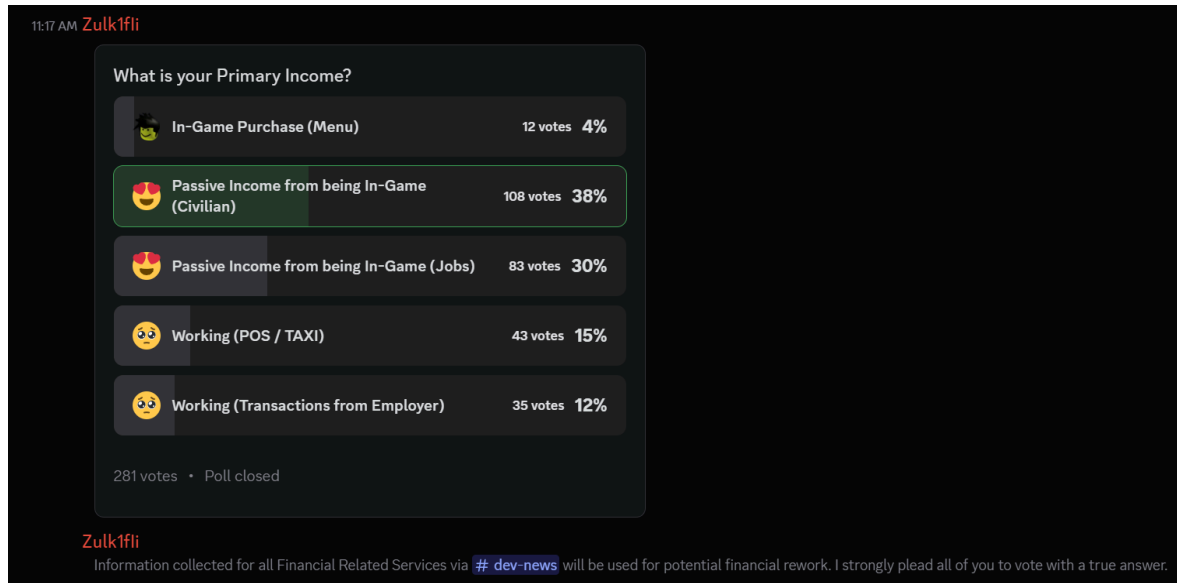

**BUILT BY MALAYSIANS, DESIGNED FOR EVERYONE**

- He worked closely at a **technical level** with Head Administrator Yan to create an integration between in-game currency and Discord, enabling users to manage balances and make withdrawals outside of the game — a groundbreaking feature in the Malaysian Roblox community.

**BUILT BY MALAYSIANS, DESIGNED FOR EVERYONE**

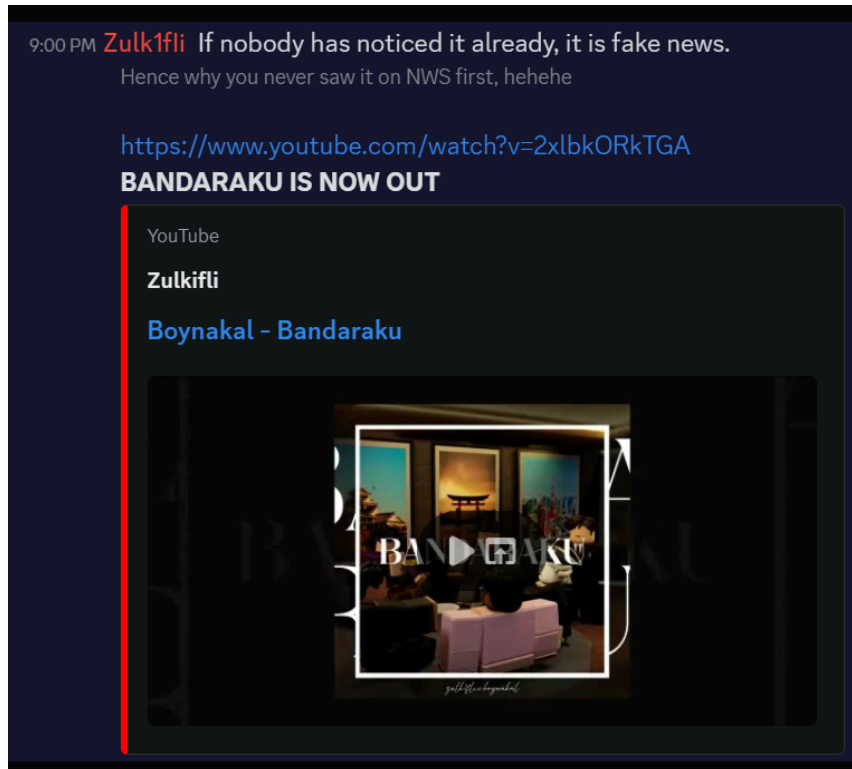

- He recently gathered **community feedback** regarding the future and development of the financial ecosystem in MYSverse.

BUILT BY MALAYSIANS, DESIGNED FOR EVERYONE

- He has shown initiative in proposing music and branding content to enhance the MYSverse experience.

In addition to **spending his own funds** on these projects in benefit of the MYSverse community (**he has not requested any reimbursement from MYSverse**), the **time and effort** he has invested into developing and creating those projects is not insignificant and we value his contributions immensely.

He joins the many other members of our community, be it administrators, moderators, developers, Sim members, and players in making MYSverse what it is today, much like the Istana's commitment to preserving the royal traditions and practices of Malaysia by translating them into a digital medium.

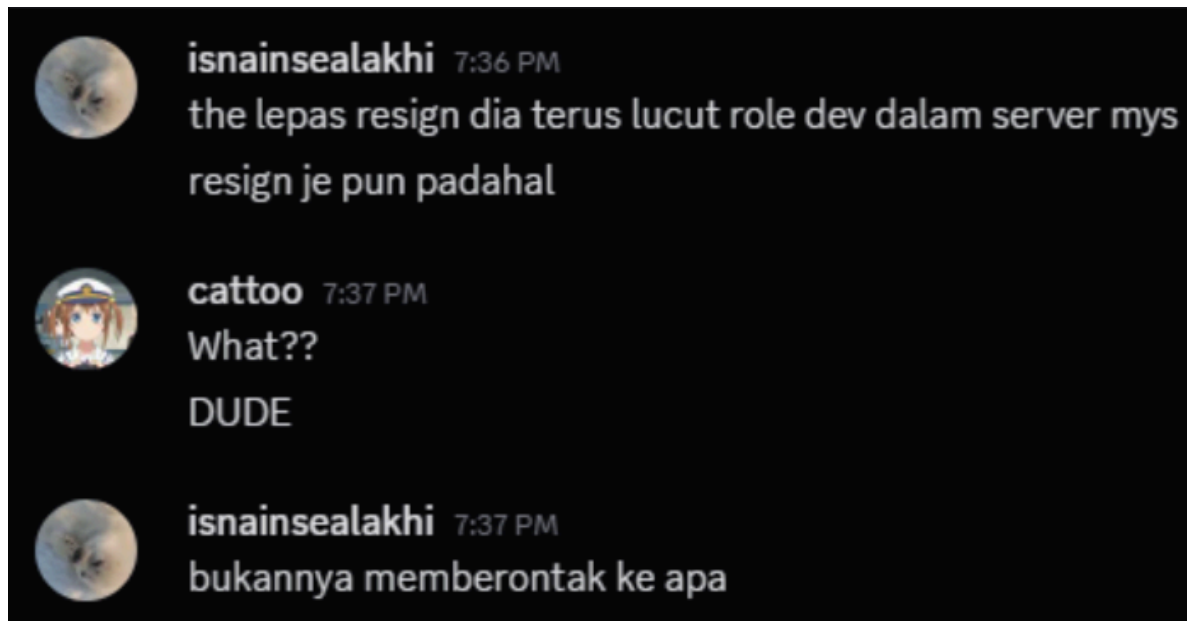

We reiterate that we are immensely grateful to Zul for delivering many of the functions which make the MYSverse Sim infrastructure possible. We regret that the recent controversy has caused many members of the Sim Community to disregard his significant material and financial contributions.

We understand that not all community members, especially those in MYSverse Sim ceremonial institutions like the Istana, interact directly with Developers and the administration. This can create gaps in understanding and break down in communication. We hope to bridge this gap with more transparent and structured communication moving forward.

## 7. Addressing Concerns On the Removal of Developer Roles After Resignation

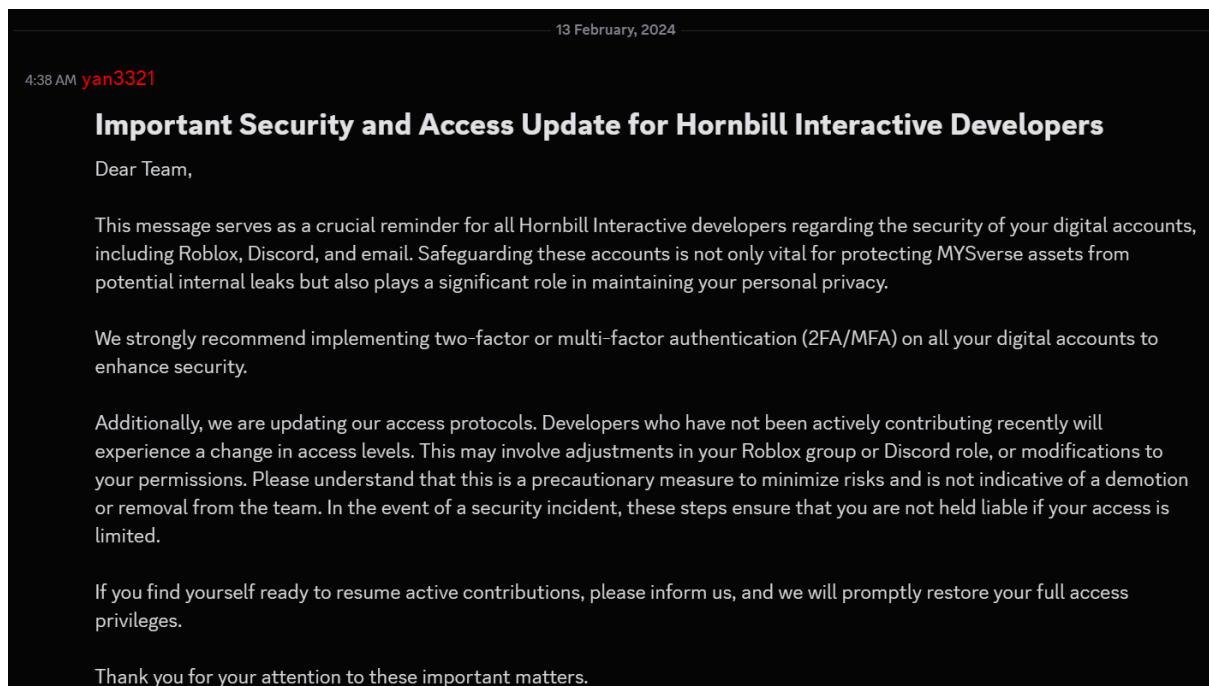

MYSverse has taken note of community concerns regarding the removal of development-related roles from a former Istana member, Syabil, following his resignation.

Firstly, we want to stress that **no punitive action was intended**, and we apologise if the timing of the change led to that impression. Our internal policy at Hornbill Interactive, which governs technical permissions and access for MYSverse Roblox group experiences, includes a long-standing protocol:

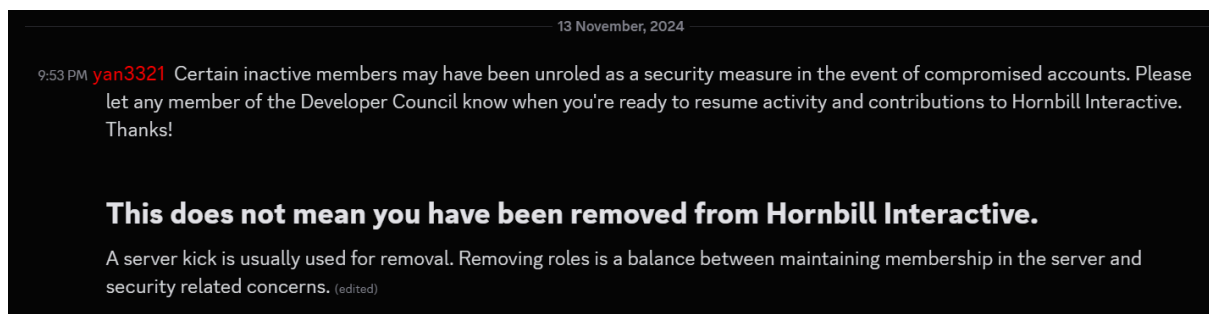

***“Developers who are inactive for extended periods or formally step away from duties will have their access adjusted or removed temporarily as a precautionary security measure.”***

BUILT BY MALAYSIANS, DESIGNED FOR EVERYONE

This policy has been in place for 1 year since February 2024:

- Inactive developers were informed they may have **roles removed** to prevent risk in case of compromised accounts.

- A follow-up message **reiterated this policy**, explicitly clarifying that role removal does not equate to removal from the team, and that access can be restored immediately upon request.

In Syabil's case, his Developer rank was suggested for removal **on 11 April** due to:

- His resignation from a significant ceremonial Istana role, which understandably caused confusion;
- His prolonged inactivity on the Development side, as noted by Administrators;
- A precautionary and pre-emptive security step to avoid any risk of confusion or permission misuse during a turbulent moment.

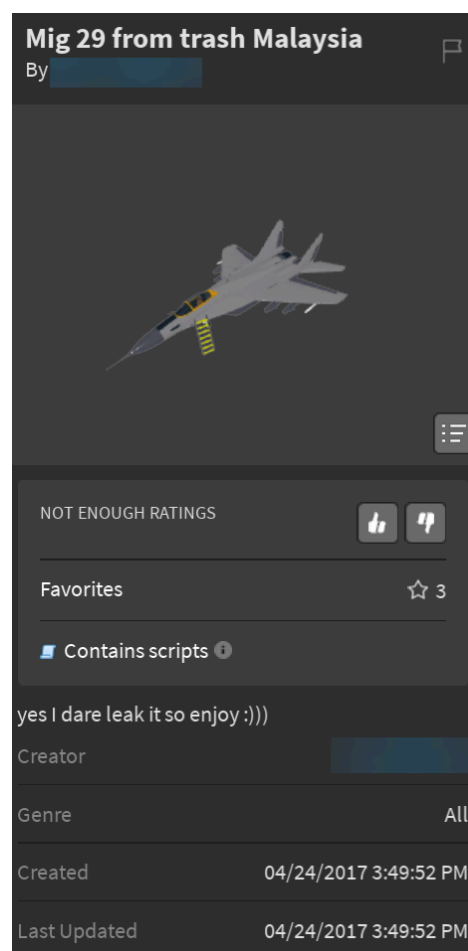

**BUILT BY MALAYSIANS, DESIGNED FOR EVERYONE**

10:23 PM garbeeze 4 people have resigned alr  
 10:23 PM yiheng16 i've got no idea why they are resigning  
 10:23 PM garbeeze right  
 garbeeze is so sudden  
 10:23 PM yiheng16 i would suggest we remove syabil from his dev rank  
 yiheng16 to prevent things from being compromised  
 10:24 PM yan3321 its about time for another purge anyways

From: MYSverse administration Discord Server

The conversation between Head Administrator Yan and Administrator Yi Heng mentions a “purge”, which is **slang that refers to enforcement of inactivity policies** in Hornbill Interactive, similar to the “prune” function in Discord.

Asset leaks have always been one of MYSverse’s most persistent threats. In the past, those who have **suddenly left or withdrawn from major roles in MYSverse** on bad terms have followed up by compromising assets and sabotaging MYSverse experiences.

BUILT BY MALAYSIANS, DESIGNED FOR EVERYONE

As such, the steps taken during this time were purely standard security measures based on our previous experience.

- At around **10:24pm on 11 April**, Syabil’s Developer roles in the Group were **removed** under these precautions.
- At around **10:29pm on 11 April (~5 minutes after)**, once we were able to confirm that he did not intend to leave MYSverse as a whole, his Developer roles in the Group were **reinstated**.

Syabil has contributed greatly to MYSverse in the past, and if he chooses to resume activity, his role will remain. At the same time, we respect his decision if he prefers to step away permanently.

We sincerely thank him for his service to both the Istana and the development team and wish him the best in his future endeavours.

As we continue growing, we are also refining a clearer process for role transitions, so no one feels unappreciated or excluded during times of change.

## 7. Conclusion

We hope this statement clarifies misunderstandings and reaffirms our commitment to collaboration, cultural preservation, and fair governance.

We welcome further dialogue and thank everyone—including those who have chosen to step down—for their service and passion in building this community.

Signed,

**MYSverse Administration**
